

Texture Life

Liquid Sizing

Background

Developed to impart body in garments by using an economical approach to formulating a product focused on restoring the original garment look and feel.

Typical Application

Used in a hydrocarbon cleaning system where the customer requirements are "a professional finish", versus the requirement of high end fashion or uniformed feel. If you desire more than "a professional finish", an Adco branded product should be selected.

Top 3 Highlighted Characteristics

1. Process Sizing
2. Hydrocarbon
3. Formulation Savings

Texture Life

Quality Liquid Sizing for Synthetic Hydrocarbons (and Other Petroleum Systems)
Imparts New Body To Limp Garments

OSHA INFORMATION:
 "Texture Life" is a proprietary mixture containing a synthetic isoparaffinic hydrocarbon. SEE MSDS FOR HANDLING AND DISPOSAL INSTRUCTIONS.

NFPA Hazard Ratings:

1	2	0
Health	Flammability	Reactivity

1 - Slight Health Hazard
 2 - Moderately Combustible
 0 - Stable

CAUTION: Moderately combustible. Keep away from open flame. Use with adequate ventilation. Vapors may cause dizziness or sinus irritation. Splashing into eyes, prolonged or repeated contact with skin may cause drying or irritation. Do NOT take internally.

FIRST AID: Remove person to fresh air. Flush eyes with water. Wash off of skin with soap and water. If swallowed, do not induce vomiting. Call physician if symptoms persist.
